

Recommended Reading: Bullying Stalking and Doxing

Sippo Rossi and Irfan Kanat

25/04/2021

This is the suggested reading list for teachers. If you feel unfamiliar with the context, get familiar by reading the following sources. The sources are ranked from most useful to least useful for the context.

If your students feel interested and ask for more, you can direct them to some of these sources as well.

Reading List:

Wired Guide to Defend Against Doxing: Core to our discussion in this module. The suggestions in this guide are practical and applicable. <https://www.wired.com/story/what-do-to-if-you-are-being-doxed/>

Computer Security Fundamentals, Chapter 3: Chapter 3 is about Cyber Stalking, Fraud and Abuse online. It gives a good overview of the issues at hand. Easttom, Chuck. Computer security fundamentals. Pearson IT Certification, 2019. Chapter 3.

An article by New York Times that has general tips on maintaining digital privacy online with good practices and software. <https://www.nytimes.com/guides/privacy-project/how-to-protect-your-digital-privacy>

A very down to earth definition of cyber bullying and a guide on how to get help when cyber bullying has started. <https://www.unicef.org/end-violence/how-to-stop-cyberbullying>

Wired Guide to Smartphone Security: <https://www.wired.com/story/smartphone-security-101/>

Wired Guide on protecting Children online: <https://www.wired.com/story/abcs-of-keeping-kids-safe-online/>
